Subject: Request for Additional Documents to Finalize Permit Application, Skull Valley, Holcim, Inc., M/045/060, Tooele County, Utah

Dear Mr. Newman:

On August 30, 2005, we received an executed surety bond issued by Travelers Casualty and Surety Company of America in the amount of \$100,000. This surety bond identifies that nine (9) acres of land will be disturbed; the correct acreage is 44.7 acres. Please contact Travelers Casualty and Surety Company and request a surety rider to address this change in acreage.

In order to proceed with the bonding process, please submit:

- rider from Travelers Casualty changing acreage on surety form
- a reclamation contract and map(s) in unsigned draft form.
- original certified evidence of authority that Mr. John Todd has authority to sign a binding document. This information can be provided in the form of a certified copy of the bylaws or resolution which states the signatory's authority to sign this bond. A power of attorney is another acceptable method providing evidence of signatory authority.

Please be advised that approval cannot occur without the complete and original reclamation contract, associated maps, and evidence of signatory authority.

The Division will suspend any further review of the Notice of Intent until the required documents are received. **You are not authorized to conduct mining operations until you received final written approval from this office.**
